About Me

I am undergraduate student at CEID (Computer Engineering & Informatics Department) in University of Patras, currently at my senior year. I enjoy programming very much and would like to have the chance to work abroad, in a competitive environment to further improve my skills and meet new people.

For more info about my projects, please visit my portfolio.

Experience

since 2012	since 2015	since 05/2016
Wave 97.4	**Freelancer**	**InterMedi@KT**
Radio Producer & IT Consultant	I worked as a freelancer web developer.	Web Developer IT Consultant

since 2016
My App
Android/Web Developer

Education

2007	1st Lyceum of Agrinio(Greece)

High school Certificate with grade Excellent (18.5)

2007	State Scholarship Foundation

Scholarship for being acce3pted as the student with the highest degree in the Department of Informatics & Telecommunications Engineering at University of Western Macedonia.

2007 — CEID

Started studying at CEID (Computer Engineering & Informatics Department) in University of Patras.

2009 — BEST

Symposium on "Latest Computer Applications and Internet" organized by Board of European Students of Technology, Patras (Greece)

2015 — Online courses completed

- Learn Linux and Level Up Your Career
- Git Complete: The Definitive, Step-By-Step Guide
- Android Development
- Java Basics
- WordPress

Languages

English – advanced
German – medium
Greek – native

Communication skills

During my academic carrier, I was given the opportunity to cooperate many times with my colleagues on a variety of team projects. Also, I had the chance to work with younger students, while voluntarily doing auxiliary work in laboratories and helping them with their homework. As a result, I believe that I can work very efficiently with my co-workers

under various circumstances.

Software: Matlab, SPSS, Wamp, Xampp, cPanel, Visual Studio, MS SQL Server, Linux, Dreamweaver, Joomla, Wordpress Photoshop, Illustrator, Gimp, Operating Systems Windows 98/XP/Vista/7/8/10, and Linux Ubuntu, Internet browsing software, Multi-paradigm numerical computing environment MATLAB, MS Office (Excel, Word, PowerPoint, Outlook etc.) for Windows and LibreOffice for Unix based systems.

Programming Languages: Assembly, C, C++, C#, Java, MySQL, Sql, CSS3, HTML5, Python, Php

Knowledge of development, management of web applications & web technologies: CSS, HTML, XML, PHP, JavaScript, SEO

Theoretical Background: Discrete Mathematics, Probability theory, Data Structures, Scientific Computing, Algorithms, Software Engineering, Parallel Algorithms, Human Computer Interaction, Legal Issues in IT, Signal Processing, Electromagnetic Field Theory, Electronics, Circuit Theory, Computer Architecture, Digital systems, Computer Networks, Operating systems, Cryptography, Computing and Artificial Intelligence, Parallel Processing, e – Entrepreneurship, Web Design, Logic Design, Linear Algebra, Graph Theory and Applications, Numerical Computation, Numerical Analysis, Introduction to Heuristic Methods, Information Transmission Systems, Distributed Systems

Military Service

Fulfilled (Armoured Forces)

Interests/Hobbies

Music, radio, literature, poetry, cinema.
